

# USB Driver Installation

Ver.1.02 March 2020

**MICRONIX**

**<Note>**

**If the message "Do you want to allow the following program from an unknown publisher to make changes to this computer?" appears, select "Yes" and proceed with the installation.**

**If the message "Would you like to install this device software? " appears, select "Install" and proceed with the installation.**

At first, you should download USB Driver file (Micronix\_Usb\_Driver(Windows10).zip) from the site of Micronix for Driver Installation.

Micronix Download Site for USB Driver

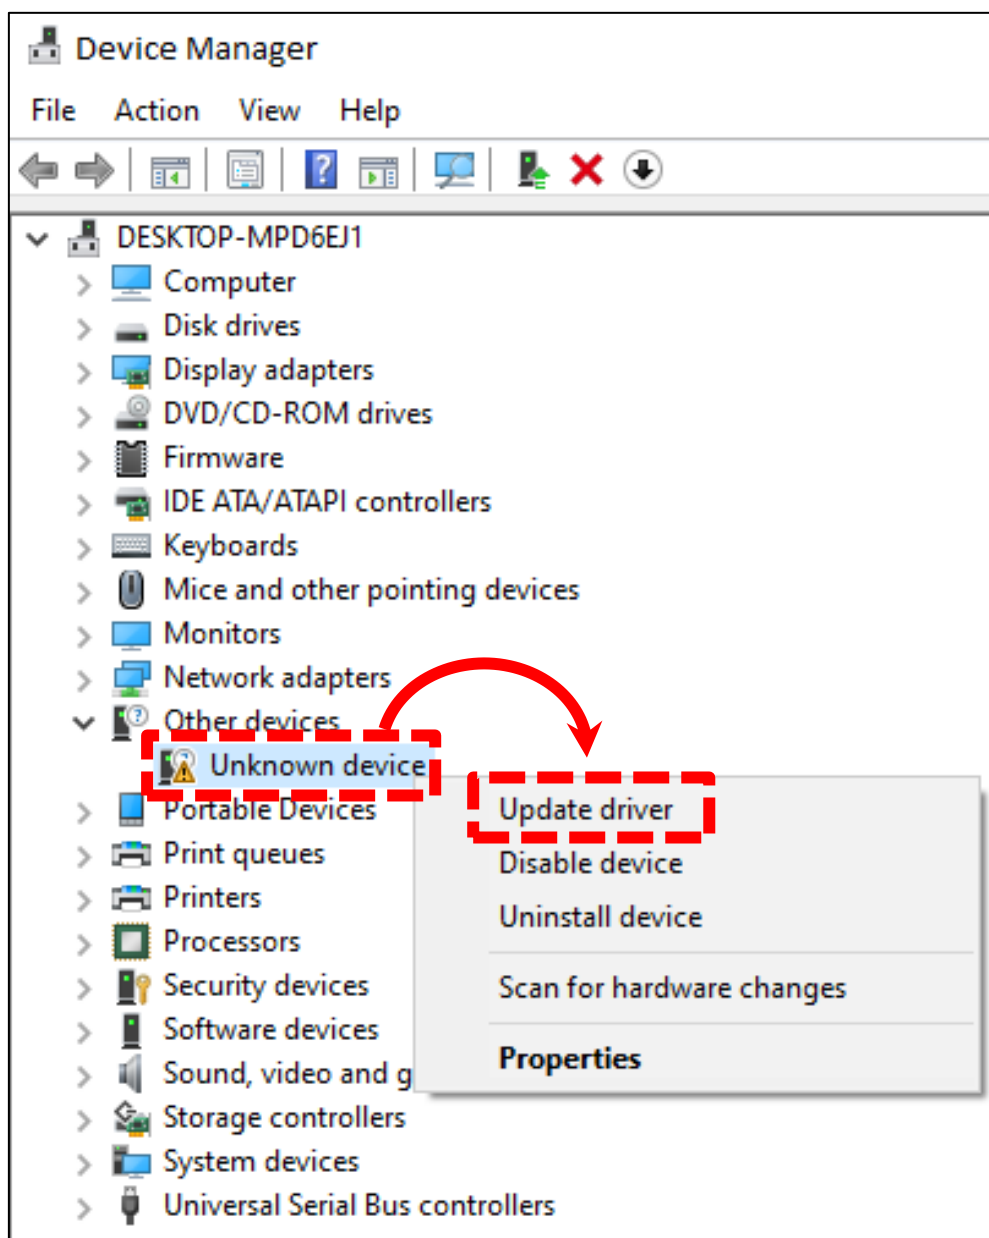

<http://www.micronix-jp.com/service/service-software.html>

Unzip it in any folder.

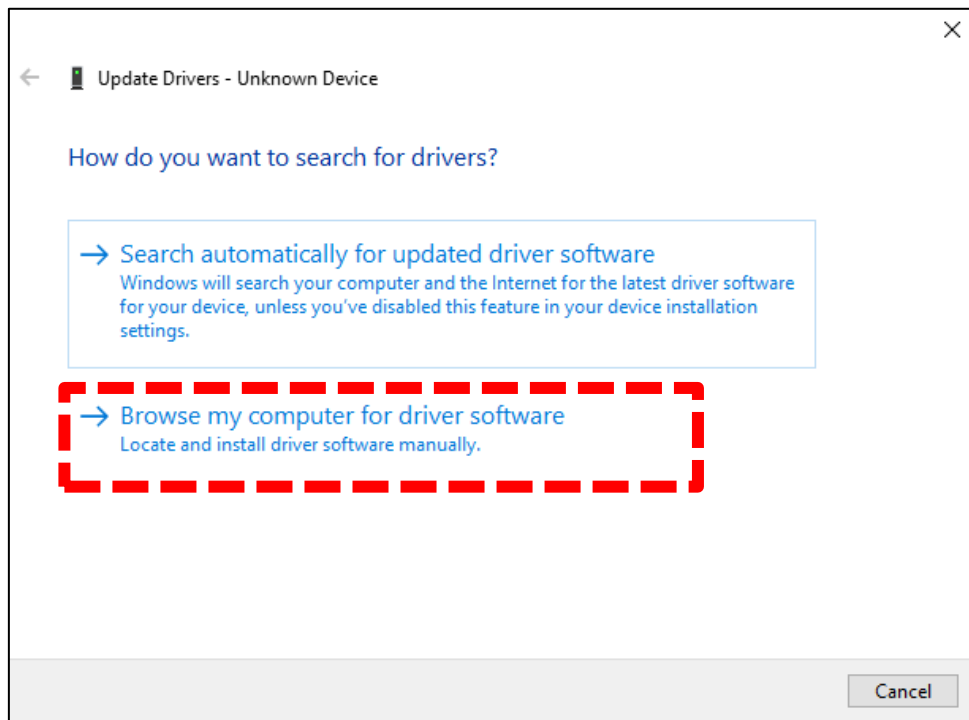

Connect the Micronix product and PC by the USB cable, and turn on.

Right-click the Windows mark and open Device Manager.

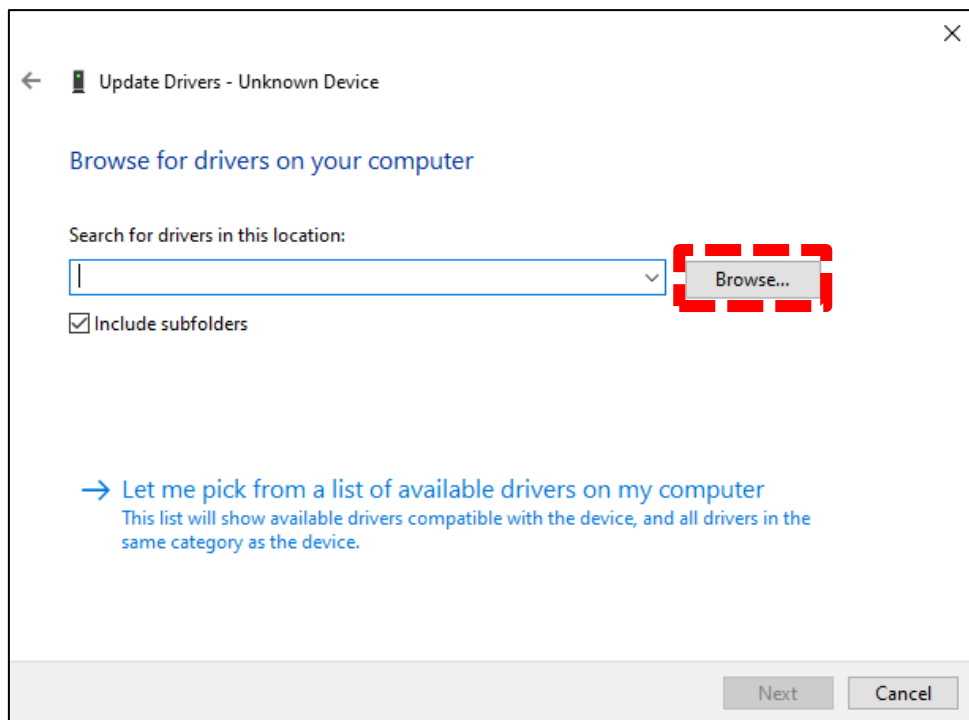

Right-click **[Unknown device]** in Device Manager, and click **[Update driver]**.

Click **[Browse my computer for driver software]**.

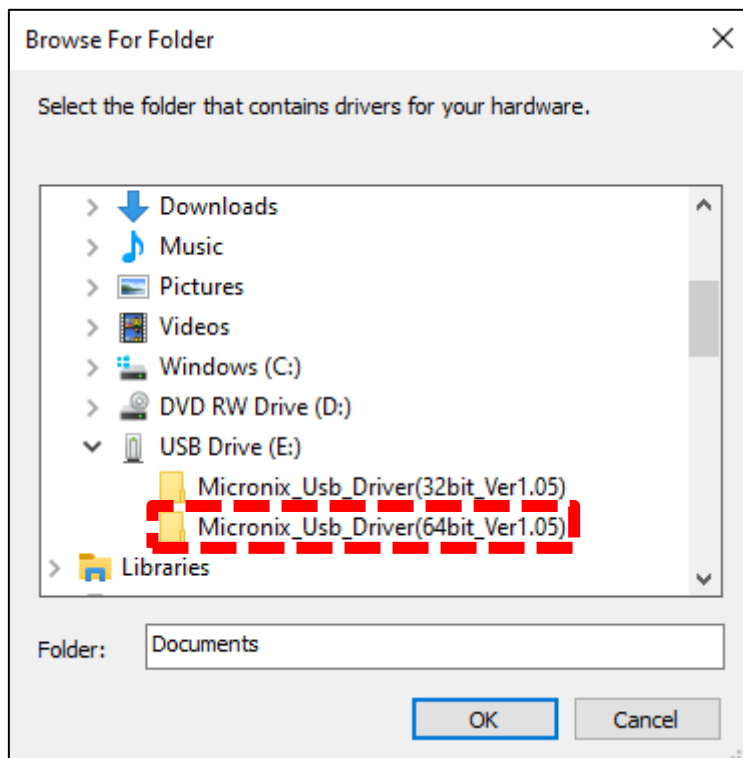

Click **[Browse...]**.

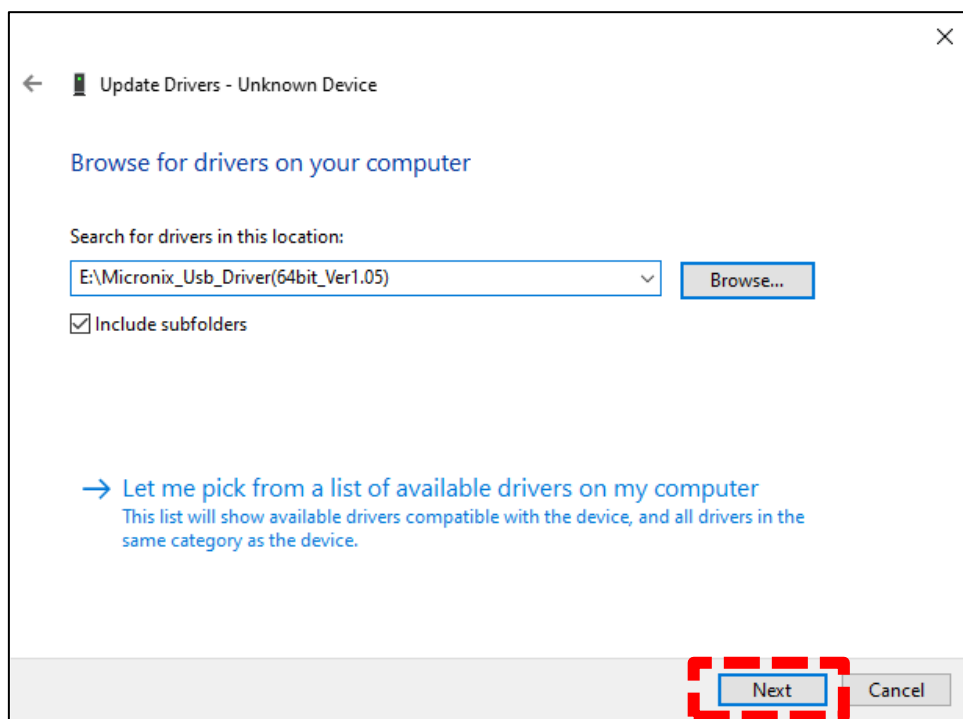

Select the folder that you unzipped USB Driver file.

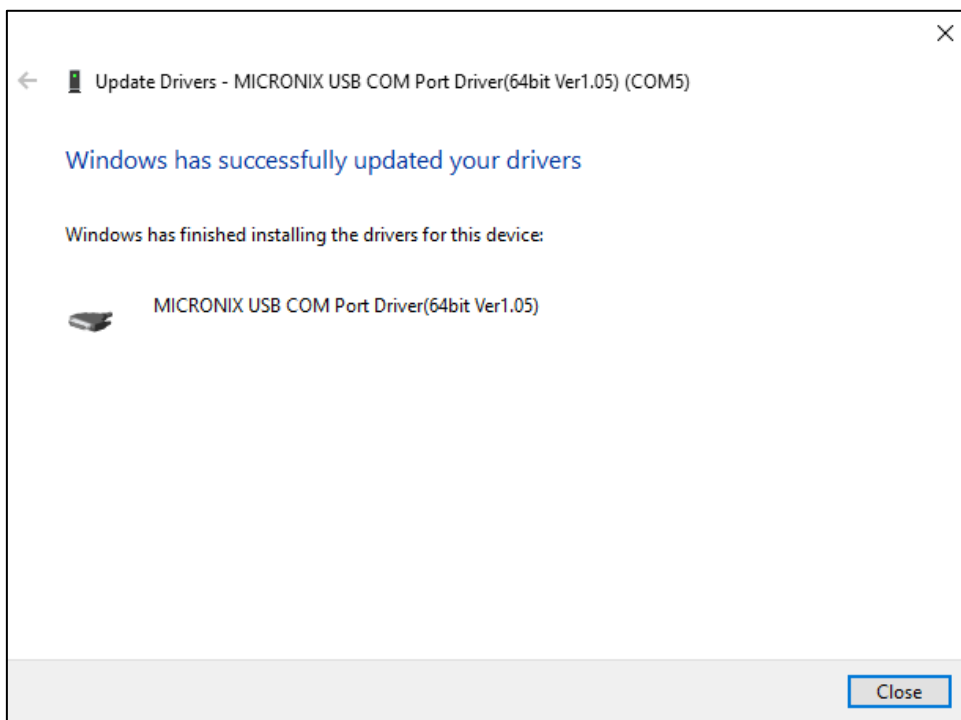

Select [**Micronix\_Usb\_Driver(32bit\_Ver1.05)**] or [**Micronix\_Usb\_Driver(64bit\_Ver1.05)**] according to the OS of your PC.

Click [**Next**].

The screen below is displayed and complete the USB driver installation.  
Click **[Close]**.
